

Ventilation Grilles

Steel Ventilation Grille and Frame

This Ligature resistant frame was designed in conjunction with a high secure site in the mental health sector, for ease of cleaning, as well as maintenance and repairs.

The frame is simply attached to the wall, which in turn can be sealed with Anti Pic around the edges allowing the frame to be left in place. The desired size of grille is then placed into the frame and secured with security screws.

- Made from 1.2mm mild steel or 430 stainless steel
- Supplied with security fixings for the grille.
- Powder coated finish in White (Available in all RAL Colours)
- Available with 2.2mm ventilation holes, pitch 5mm
