Kingsway Group

KG07 Manual Soap Dispenser

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

Stainless steel surface mounted manual liquid soap dispenser. Soap dispenses from the manually operated unit to provide a hygienic and anti-ligature solution to hand sanitization with a shaped top and smooth edges making it suitable for the most challenging environments.

Installation Description

- Mark out the location of the dispenser
- Drill and plug holes to a suitable depth
- Secure the dispenser to the wall using the security fixings provided
- We recommend that all washroom items are also sealed around all sides with anti-pick sealant

Operation and Maintenance

Operation

To load the dispenser unlock the front door and fill the reservoir with soap liquid.

Maintenance

Care should be taken to ensure that the lock remains functional and free from signs of damage or tampering.

Cleaning

Use only a damp cloth to clean the dispenser, where necessary a mild detergent can be used.

Guarantee

10 Year Guarantee*

*For faulty manufacture and not for damage

Specification

KG07 Liquid Soap Dispenser

This product is refillable and requires soap to be purchased separately. We recommend the Gojo 1847-04 for this product which is purchased in a 5l container.
